DETAILED ACTION

Claim Objections

1. Claim 1 is objected to because of the following informality: The recitation “What is claimed...” should not be a part of the actual claim, but rather a heading to the claims.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 3, 4, 6, 8-10, 13, 14, 16, 18, 22, 28, and 29 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

4. Claims 3, 4, 6, 8-10, 13, 14, 16, 18, and 22 are indefinite for the use of the improper Markush group language “selected from the group consisting essential of.” Proper Markush language is “selected from the group consisting of.” The addition of “essentially” renders the scope of the claims unascertainable.

5. Claims 28 and 29 recites the limitation “said covering” in lines 4 and 3, respectively. There is insufficient antecedent basis for this limitation in the claims.

Allowable Subject Matter

6. Claims 1, 2, 5, 7, 11, 12, 15, 17, 19-21, and 23-27 are allowed. The prior art does not teach or fairly suggest a tufted article having a primary backing of polymer particles bound together with a binding agent. Nor does the prior art teach a method of making said article wherein a base of bonded polymer particles is needle tufted.

7. Claims 3, 4, 6, 8-10, 13, 14, 16, 18, 22, 28, and 29 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
